Community Center

Recreation Leader Position

Mr. Gant asked the Board to change the pay range for the Recreation Leader position from \$9.20 to \$10.66 per hour to \$8.30 to \$19.85 per hour. **This is a position** that hasn't been used much to date because we have been able to cover our classes with contractors. However, recently we have seen an increase in the participation in our classes. We would like to meet this increased demand by offering more classes, which would increase participation at the Center and move us closer to our revenue goals. However, we need more instructors in order to do this. A few of our current part time staff would like to begin teaching classes, which would help us to meet this demand. By and large these employees don't have, and don't want to get, the insurance necessary to teach **a class as a contractor**. **Since** we already carry the necessary insurance, we can accommodate these employees at no extra cost with the added benefit that we will be able to pay them less than contractors. **Just** as with classes taught by contractors, we would not run a class unless there were enough students signed up to pay for the instructor and reimburse the Center for overhead.

Comments/Issues: Trustee Kennedy asked a few follow up questions.

Mr. Kennedy moved that the Board approve the revised pay range for the Recreation Leader position at the Community Center as submitted. Mr. Stormont seconded. The votes were as follows: Mr. Stormont, Aye; Mr. Kennedy, Aye; Mrs. Schmelzer, Aye. Motion passed.

Roads, Cemeteries, and Parks Department

Electrical Changes - Concession Stand

Mr. Hatmaker asked the Board to approve additional costs for the GRSC Concession Stand Electrical Service. Originally, per plan, the transformer to provide power to the concession stand was to be installed to the north. The cost for AEP to do this was greater than the cost of the Township installing secondary service from a location south of the concession stand and just north of the parking lot. In addition, AEP would have required the Township to provide a hard surface for their trucks to access the transformer under the original plan. Based on this knowledge, Mr. McAninch requested a quote for installing secondary service from LeVeck. LeVeck's electrical sub-contractor provided a quote of \$61,379.49 to install the conduit, wire and pull the wire in a ditch dug by others. Upon further review, Mr. McAninch has determined that we can realize substantial additional savings by doing the majority of this work in house. As a result, Mr. Hatmaker requested that the Board approve the expenditure of \$37,982.12 for electric service to the concession stand. This includes the purchase of the conduit and wire from Star Electric in the amount of \$23,149.12, as well as payment of \$14,833.00 to Hager Construction, LLC for the installation of wire. The Road, Cemeteries and Parks Department will dig the trench and install the conduit. This cost represents a savings of \$23,397.37 compared to LeVeck's quote. Funds available through the loan for the concession stand and the 2018 Parks Capital Fund appropriations will cover the cost of this work.

The estimate Mr. Hatmaker recommended comes to \$252,644.50. This is only an estimate the work still needs to go to bid. There will also be a percentage of the Maintenance of Traffic and a percentage of the bond that the Township will have to pay. The road district fund has 250,000.00 in it. Any amount over what the road district budget has in it will come from operating funds for the Road Department.

2019 Dump Truck Purchase Changes

Mr. Hatmaker asked the Board to approve an additional \$9,433.00 toward the purchase of the 2019 Freightliner Truck, which was originally approved on January 17, 2018. Mr. McAninch is requesting this increase because: there has been a change in the vendor for the truck up fit; the addition of a couple of upgrades; and, he can get the plow cutting edge system at a slightly discounted cost from Henderson Products, Inc. The actual net increase in the cost is \$6,693.57 because the Board would have otherwise needed to consider an additional \$2,739.43 to purchase the JOMA system for the snow plow directly from Winter Equipment. Mr. McAninch is recommending the switch in vendors because the vendor we had been using has lost some key personnel and he has questions about the quality of work we would receive. This increase will come out of the funds already appropriated in the Machinery, Equipment and Furniture line item of various RCP funds.

Mr. Hatmaker asked the Board request additional funds for the Lincoln Village Curb Ramps Improvement Project from the District 3 Integrating Committee of the Ohio Public Works Commission and authorize the Chairman to sign a letter making the request. The Board awarded the construction contract for this project, in the amount of \$297,098.27, on February 14, 2018. The grant for construction, including contingency, was \$351,874.00. The letter would request the use of the remaining \$54,775.73 toward improving additional intersections within the scope of the project.
